

JAP FAR EAST POLICY SCORED

COLD SITUATION GROWS MOST SERIOUS

NO LETUP IN FRIGID WEATHER CONDITIONS NORTH HALF NATION

MORE THAN FIVE HUNDRED DEAD; FUEL, FOOD AND WATER SHORTAGE SEEN

CHICAGO, Feb. 10.—(P)—Towering snowdrifts and glacial cold crippled much of the mid-continent today, returning the fight against the elements to the terms of pioneer days.

Isolated ranchers in South Dakota burned fence posts and hay to keep warm, while their city cousins in snowbound communities in that and other Central states rationed fuel against the sub-zero cold.

Abnormally cold weather, the weather bureau said, would continue in the North-Central states tomorrow and probably through Wednesday, with, however, some rise in temperature in extreme southern sections tonight or Tuesday.

Some snow flurries were predicted for parts of the Upper Great Lakes region.

Throughout the Middle West augmented crews worked to dig out the paths of modern travel—highways and railroads, after a week end in which both were almost at a standstill.

Double engines pulled some trains into Chicago, as many as 30 shovels rode other lines. Drifts in railroad cuts were reported as deep as 30 feet.

The longest and bitterest cold spell of many years clung on relentlessly, with the lowest recorded temperatures minus 32 at Williston, N. D. Almost the entire northern half of the country was in the grip of zero, sub-zero or near to zero.

Winter pushed the zero front as far south as extreme Southern Missouri, and east to New York.

CHICAGO, Feb. 10.—(P)—Worse and more of it was the weather forecast today as the frigid wave continued in the second month of an apparent assault to pound mercury as far down in the thermometer as possible.

Deaths continued in the sub-zero areas as the total for the year went well past the half thousand mark. Suffering continued apace. Threats of floods and danger from the expected breakup of ice.

WHAT CONGRESS IS DOING

By the Associated Press

Senate—Today: Meets at noon with farm bill debate scheduled. Expected to recess quickly, however, because of death of Charles Curtis, Munitions committee to question officers of national defense groups. Foreign relations committee considers neutrality legislation.

House—Today: Considers Appropriations, and District of Columbia legislation. Also expected to recess in tribute to Curtis.

Senate and House—Saturday: In recess.

BORAH AND FESS ROW AFFORDS DEMOCRATIC LEADERS NO SMALL AMOUNT POLITICAL SATISFACTION

BRISK TRADING IN LEASES REPORTED IN NEW OIL DISTRICT

TITUS COUNTY WILDCAT WELL BELIEVED HAVE OPENED UP NEW FIELD

TALCO, Feb. 10.—(P)—Brisk trade in leases and oil royalty rights continued today as operators prepared to set casing on the R. L. Fess, C. N. Howe and E. G. Thompson No. 1 Carr well.

Howe said the well, located a mile southeast of Talco in rank wildcat territory, ran 750 feet of oil through three-eighths inch choke top and bottom Friday night in 23 minutes in a drill stem test.

The oil, of 27 gravity, was believed to be from the Paluxy sand or its equivalent in the upper part of the Trinity. Eight inches of saturated sand, Howe said, was recovered in coring from 4,205 to 4,208 feet.

The well is more than 60 miles from production, at the edge of the East Texas field.

Howe denied oil spouted 40 feet above the mouth of the hole, as was reported Saturday.

The boom in leases, begun after

SNOW BLOCKADE IN MID-WEST

A heavy, drifting snow dammed up Midwestern traffic along road and rail during a subzero blast of winter. Top, the locomotive of the Chicago and North Western, which stalled near Jackson, Wis., marooning 89 passengers overnight. Below, an auto virtually buried in drifts as a giant plow was blocked in six to eight-foot drifts near Algonquin, Ill. (Associated Press Photo)

Texas Cold Shows Abatement During Past Few Hours

(By The Associated Press)

Moving slowly eastward, the latest cold wave to hit the South west abated in Texas today under clearing skies.

Sub-freezing temperatures prevailed again in North Texas last night as the bitter "norther" took a parting fling at the area, but temperatures rose steadily under a bright sun during the day.

It was raining at Brownsville, with the temperature going no lower than 46 there. The mercury touched the freezing point at Austin, Houston and San Antonio.

It was 16 at Amarillo, 18 at Abilene and 20 at Dallas this morning, but the northern and western parts of the state were clear and getting warmer.

The weatherman forecast slightly warmer conditions for the northwestern part of East Texas tonight. Frost was expected in

CHIEF OF STAFF OF UNITED STATES ARMY URGES DEFENSE

TROUBLOUS TIMES IN WORLD HELD AS WARNING FOR AMERICA BE PREPARED

WASHINGTON, Feb. 10.—(P)—General Malin Craig, chief of staff of the army, told congress in a report published today that "evident troublous times in the world" should spur the United States to build its defense.

A report of hearings on the war department appropriations bill carried Craig's recommendation for a minimum of 14,000 officers and 165,000 enlisted men in the regular army, plus a minimum of 210,000 in the national guard.

"It is perfectly evident to everyone that troublous times have again arrived in the world," said General Craig. "A state of war exists in Africa, Asia is reeling to the tramp of marching men."

"These are far from our shores. We do not see how they can pose

GOVERNMENT ORDERS FEDERAL TROOPS TO END TAMPICO RIOTS

FIVE KILLED AND EIGHTEEN WOUNDED IN LABOR CLASHES THERE SUNDAY

By CLARK LEE
Associated Press Foreign Staff.
MEXICO CITY, Feb. 10.—(P)—The Mexican government ordered out federal troops at Tampico today to prevent any recurrence there of the labor clashes in which five persons were killed yesterday and 18 wounded.

President Lazaro Cardenas, who was in Monterrey attempting to solve a labor dispute in that industrial center, directed Gen. Juan Andreu Almazan, commander of the Nuevo Leon Military zone, to take control of Tampico and to investigate the conflict.

General Almazan ordered the troops to guard headquarters of union stevedores and their rival workers.

Tampico dispatches said a large group of workers, supporting municipal officials who were removed from office last week, held a mass demonstration late yesterday and attacked the longshoremen's headquarters, the maritime workers returning the fire.

LOUISIANA TAX ON NEWSPAPERS VOIDED BY SUPREME COURT

UNANIMOUS DECISION ON UNCONSTITUTIONALITY DELIVERED BY SUTHERLAND

WASHINGTON, Feb. 10.—(P)—Louisiana law passed at the behest of the late Senator Huey P. Long, taxing newspaper and advertising, was killed by the supreme court today as an unconstitutional restraint upon the freedom of the press.

"This seems to be a device to limit a free press," declared Justice Sutherland in the court's unanimous decision. "Suppression or abridgement of a free press can not be viewed except with concern."

He said an "informed and enlightened opinion" has been at stake throughout history and that restraints on newspapers plainly were prohibited by the 14th amendment to the constitution.

The Louisiana law, passed in 1934 when Long dominated the state's politics, taxed newspaper, magazine and motion picture advertisements. It imposed a 2 percent gross receipts tax on advertisements in publications with a weekly circulation of 20,000 or more.

A three-judge federal district court in Louisiana had held the legislation unconstitutional and enjoined the state from enforcing it. "Thirteen newspapers challenging the legislation claimed it violated 'freedom of the press' and was intended to punish them for opposing the Long political forces."

Counsel for the state replied the "national weekly is regarded as a civic institution, whereas the large dailies are huge commercial enterprises." They contended the liberty of the press was not involved.

The law provided that any person

CITY OFFICIALS COMPLETING PLANS FOR WPA PROJECTS

STREET REPAIRS COVERING LARGE PORTION OF CITY ARE INCLUDED

Members of the city engineering staff are now engaged in completing detailed plans on a number of WPA projects for the municipality and hope to secure approval before the March 15 deadline for starting construction, according to information received Monday.

Among the more important projects are street repairs covering a large portion of the city. The project was submitted shortly after the WPA was inaugurated but was rejected after several weeks delay because the cost per man year was deemed excessive. Local engineers are now breaking down the mass project into units taking the routes covered by state highways first, and others as rapidly as they can be surveyed and plans drawn.

Change Type Repairs. City officials indicated that they believed that the projects would be approved now because of low-

TRAINED LIONESS IN HOSPITAL AFTER OPENING AND PROBABLY CLOSING BALTIMORE PROGRAM

BALTIMORE, Feb. 10.—(P)—Ruthie rested in a hospital here today after an opening night, turnout performance.

Ruthie is a lioness. Her first performance in Baltimore—some say it was her last here—was in a neighborhood theatre last night. In her wake she left a slightly injured lion and a host of women and nearly 2,000 frightened theatre patrons.

For Ruthie, instead of going on the stage, bounded from her cage backstage, through a door and into the aisle. Her second bound carried her into the laps of four boys in the fourth row.

The boys thought at first she was a big dog. Edward Poslusny, 15, found out that Ruthie really was a lion when she moved suddenly, leaving Poslusny with a clawed knee. He was treated at a hospital and sent home.

As Ruthie bounded again, she passed directly in front of Mrs. Blanche Pearl. Mrs. Pearl fainted, later was treated for hysteria

See LIONESS, Page 6

MORE SEACOAST AND WESTERN DEFENSES SUGGESTED IN BILL

ARMY APPROPRIATION BILL WOULD INCREASE ARMY AND GUARD STRENGTH

WASHINGTON, Feb. 10.—(P)—More seacoast and western outpost defense, further increases in army enlisted strength and the national guard and expansion of the air force were recommended to the house today in a war department appropriation bill carrying \$374,981,521 for the nation's land forces in the 1937 fiscal year.

This national defense total was another peace time high. It was \$23,803,501 more than the \$351,178,020 allowed for the current financial year ending June 30, although \$53,865 below budget estimates. War did the total include a grant of authority to contract for \$10,669,786 worth of equipment, reappropriations of \$2,845,925 and \$285,000 made available of purchase-discharge funds. Their addition brought military funds available for the next fiscal year to \$388,782,232.

Including \$168,369,985 for non-military activities, the bill's overall total was \$543,941,506 in outright appropriations.

Disregarding budget recommendations to hold the army down to 147,000 men next year, the appropriations committee added \$2,344,211 in re-appropriations with the stipulation that the enlisted strength be brought to not less than 150,000 or only 15,000 short of the maximum 175,000 strength ordered last year by congress.

Provision was made for procurements of 565 airplanes during the year. By cutting down the allowance for spare engines, the committee permitted the purchase and contracting for 58 more planes

See SUPPLY BILL, Page 5

Severest Cold Of Winter Here Saturday Night

The lowest temperature of the season was recorded Saturday night when the mercury in the official government thermometer dropped to 15, one degree below the previous low point of 16 recorded on Saturday night, January 18.

Striking early Saturday morning the norther grew in intensity for a few hours and then during the middle of the day temporarily relaxed and the thermometer went to 20, the high point after the norther struck.

Sunday was clear and the afternoon was comfortable, leaving the impression that Old Man Winter had relented and would grant a few days, at least of reasonably warm weather. But the norther showed strength during the night and the mercury again went below the freezing point to 24. The temperature climbed slowly Monday morning and at 1 o'clock the thermometer at the Daily Sun office registered 39.

Clear and slightly warmer is the weather bureau prediction for this territory tonight and Tuesday.

MRS. LONG SWORN IN AS SUCCESSOR LATE HUSBAND IN SENATE

By LENWOOD H. BOWMAN
Associated Press Staff Writer

WASHINGTON, Feb. 10.—(P)—Mrs. Rose McConnell Long, of Louisiana, appointed to serve the unexpired term of her late husband, Huey P. Long, was sworn in today as the second active woman member of the senate.

The oath was administered by Vice-President Garner as a capacity gallery looked on.

Mrs. Long, who was escorted to the dais by Senator Overton, was appointed to the senate by Governor James A. Noe and has been designated by the state central democratic committee as democratic nominee in the state general election in April.

Senator Hattie Caraway of Arkansas was the first woman elected to the senate.

Senator Overton and Governor Noe escorted Mrs. Long into the chamber.

She was dressed in black and wore an orchid shoulder bouquet. From the gallery the ceremony was watched by her daughter.

See MRS. LONG, Page 5.

MORE THAN 100,000 DRESSMAKERS READY ANSWER STRIKE CALL

INDICATIONS ARE THAT EFFORTS AVERT WIDESPREAD STRIKE WILL FAIL

By TOM HAGENBUCH
Associated Press Staff Writer

NEW YORK, Feb. 10.—(P)—Some hope of averting a strike of more than 100,000 dressmakers was seen today when a conference of union and manufacturers' representatives with Mayor Fiorello LaGuardia was postponed to allow the unionists and garment makers to continue direct negotiations.

The conference with the mayor was delayed until tomorrow. The direct negotiations were scheduled to continue throughout this afternoon and tonight.

There was no statement forthcoming from either the union leaders or the representatives of the five employer groups, but it was indicated there was reason to hope for a settlement of differences.

The union, however, still continues its strike preparations.

Meanwhile, 11,000 hotel employees threatened to leave their jobs unless operators acceded to an ultimatum that expires at 7 p. m. today. The strike would affect 210 of New York's hostels, including

SENATOR PITTMAN IN SHARP CRITICISM OF JAPANESE ACTIVITY

CHAIRMAN SENATE FOREIGN RELATIONS COMMITTEE REFERS TO JAP ARROGANCE

WASHINGTON, Feb. 10.—(P)—Japanese policy in the Far East was sharply attacked in the senate today by Chairman Pittman (D-Nev) of the foreign relations committee and Senator Lewis (D-Ill), who envisioned an alliance between Japan and Russia for the control of Asia even at the expense of American interests.

Pittman called the Japanese pro-cessings in China a "threat to the United States" and vigorously assailed utterances of Japanese authorities directed at the United States.

Lewis drew applause from the gallery in defiance of senate rules, as he concluded his warning.

He termed the withdrawal of American rule in the Philippines "a great blunder" and said the first step in Russo-Japanese move against this country would be directed at Alaska.

Pittman spoke of treaties "openly and ruthlessly violated." He referred to what he called Japanese "threats" "propaganda" and "arrogance."

"China is still an independent sovereign government, at peace with the world, and desirous of trading with us," he said, "and there is nothing in the circumstances to justify such talk."

Because of his high position at the head of the senate committee dealing with international affairs, his speech was regarded as certain to attract world-wide attention.

He called upon congress to "take cognizance" of the Island Empire's policy toward China, and "its intended effect upon the United States."

Pittman declared Japanese armaments conquest of Manchuria "in violation of the covenant of the League of Nations, the Kellogg-Briand pact to outlaw war, and the nine-power pact."

He asserted that in asking con-

Col. Antonio Figuera, political leader of the village, was quoted as saying that more than 1,000 inhabitants were already dead and that at least five were dying each day.

BRUSQUE, BALDISH TEXAS OIL MAN FEELS NEW FIELD WILL BE FOUND SOON; DREAMED BIG LAKE

NEW YORK, Feb. 10.—(P)—A brusque, baldish Texas oil man, Haymon Krupp, who is reluctantly 61, gazed out a Manhattan hotel window today, saw a vision of gushing, black oil and prophesied:

"I feel I'm going to discover another oil field."

Back in Hudspeth county, Texas, drillers, sweating and grime faced, are working in three shifts, 24 hours a day, to fulfill the vision, putting down the first well.

Krupp, one of El Paso's leading citizens, had a similar dream which in 1920 resulted in discovery of the Big Lake field, on lands of the University of Texas. The university's one-eighth royalty has reached the \$25,000,000 mark.

Krupp shied away from the subject. Explained Mrs. Krupp: "My husband doesn't like to talk about what he has done. But I'm going to tell you this. He's the finest man that ever lived and he made the University of Texas one of the richest schools in the country."

Krupp, laughed, picked his wife on the cheek, and told her to get started on her shopping trip.

For Haymon Krupp life has been a patchwork quilt.

Born in Lithuania as a remote relative of the amiable Krupps of Essen, Germany, his

BLIZZARD CAUSED POSTPONEMENT OF SATURDAY GAMES

TEN CONTESTS FRIDAY; PURDON SHOWED CLASS IN TOPHEAVY WIN

By JOHN SAM HASLAM Sun Sports Staff

Purdon defeated Richmond 35-15 at 8 o'clock Saturday morning on the Mildred gymnasium in the only game played in the 1936 University of Texas Inter-scholastic League class B Navarro county boys' basketball tournament, before its postponement on account of the cold weather. The second game, forfeited by Currie, which put them into the quarter-finals with the defending champions, Purdon.

Five of the eight teams have been decided in the quarter-final games, and include Purdon vs. Currie; Mildred vs. Pickett and Rural Shade vs. the winner of the Barry-McCord second round game. At press hour Saturday morning, officials had not reset the times for the games, but it is likely the tournament will continue next Saturday.

Three games remain to be played in the second round, and include Barry-McCord, Mildred vs. Currie and Emhouse-Emmett games. Following is the box-score of the 8 o'clock Saturday morning game, between Purdon and Richmond:

Purdon	fg	ft	pt
Brown, f	1	1	9
Rogers, f	2	0	1
Murray, f	0	1	1
Kennedy, c	1	0	2
Neeley, g	8	0	0
Wheat, g	0	0	0
Whitfield, g	1	1	0
Coffey, g	0	0	0
Totals	16	3	35

Richmond—
Stevens, f 6 2 2 14
Hendon, c 0 1 1 1
Cox, g 0 0 1 0
Knotts, g 0 0 1 0
Totals 6 3 5 15
Referee, Ballew, timer, Merrill; Scorer, Haslam.

Purdon, showing by far more class than any other team, was the overwhelming favorite of the day Friday, when they defeated Bazette 63-14 in the first game. They are the two-year defending champions, and showed considerable form in the first game, which was conceded (by coaches) as the second best team in the county, and thereby seeded them in opposite brackets.

Mr. Cobb didn't put a team on the floor at 9 o'clock and Richmond was given the nod in a 2-0 forfeit. Currie entered the second round by burying Purdon under a 29-0 score in the 10 o'clock game. Purdon was shut out in the second round with a 2-0 forfeit when Wilson didn't show up for the 11 o'clock game. Mildred battled Corbett to a 19-15 tie at noon, but won one of the very few interesting games of the day.

Barry Downed Bradley. Then at 1 o'clock Friday afternoon, Barry came to fight with Purdon, and at 2 o'clock McCord battled over Bradley 52-9. Navarro, once a factor with which to be reckoned before settling the tie, did not show up for the 4-17-10 win over Buffalo. Bryan won the right to play Navarro in the second round with a 51-18 decision over Brushy Prairie. One of the best games of the day was the Emhouse-Frost event, which Emhouse annexed to the tune of 15-10, at 5 o'clock. The long-looked-for Emmett-Rice game was somewhat of a disappointment to the fans, as the game was called off at 17-10 in the first quarter.

West to show better form than they did. Rice led most of the way, but Emmett tied the score shortly before the gun, and added five points to win 19-14, in the 6 o'clock game.

Pickett Strong. Pickett showed up to better advantage than most observers expected they would, when they clinched a seat in the quarter-finals with a 26-15 decision over Union High. Rural Shade also showed up to fall victim to the against impotent opposition in Blooming Grove 37-13. Mildred winning the 8 o'clock game against went into the quarter-finals with a 2-0 forfeit from Long Prairie.

Considerable interest on the part of partisan fans was shown despite the fact the weather was disagreeable Friday, and shivered in the cold to see their favorites play.

Following are the box scores of Friday's games:

Purdon 63, Bazette 14.

JAKE ROBERTS AND EUGENE MASSEY ON SCORING RAMPAGE

LIMESTONE COUNTY BOYS UNABLE TO MATCH THE LOCALS DIZZY PACE

Corsicana High School Basketball Tigers turned on the Mexia Black Cats with a vengeance early in their Central Texas Basketball league engagement here Friday night and chalked up a 37-13 decision. This victory definitely kept the Bengals out of the cellar in the standings and also definitely put the Tigers at the top of the class.

The Tigers showed more speed and hustle than in some time and the performance of Massey at forward and Jake Roberts, substitute guard, was sensational. Massey scored 23 points during the evening in the three periods he was in the lineup. The first points scored by Massey put the Bengals definitely ahead while Roberts shot some of the first goals seen of the local court this year. Several of the shots were backward tosses. McElwath played a good game while the entire Bengal performance was hushing.

Blackmon substitute guard for the Black Cats, led his mates when he looped three field goals, two of them in the fourth period. Bowden and Bowers played exceptionally well for the visitors.

Both clubs frequently made bad passes and missed crisp shots at the basket, but in the main it was a hard-fought melee.

Massey scored 23 goals in the first quarter and put the Bengals ahead and the leader was never lost. McElwath contributed a 6-3 field goal to give Corsicana a 3-1 lead at the end of the first quarter.

Bengals Led at Half. Roberts went into the game in the second stanza and looped a couple of fielders and a free toss while McElwath converted a free field goal and the locals a 12-5 lead at the half.

Starting the second half with a bang, Massey and Roberts teamed to ring the basket frequently. Massey looped four field goals, and Roberts shot four field goals, while McElwath added one fielder for good measure.

During the last period, the Bengals scored only twice, only once when they fell into the wall of the gymnasium. His hurts are not serious and he remained on the sidelines during the remainder of the game.

Mexia outcounted Corsicana in the second stanza when Blackmon turned in a couple of goals and Bowers rang one.

MUSTANGS DROPPED FIRST CLASH 34-23 AT FAYETTEVILLE

BAYLOR BEARS TROUCE TEXAS AGGIES HANDILY AT COLLEGE STATION

By The Associated Press.
The tall Arkansas Razorbacks today held the undisputed leadership in the Southwest conference basketball race.

Playing on their home court last night the Porkers defeated the Southern Methodist Mustangs, 34 to 23, while the Baylor Bears were trouncing the Texas Aggies, 42 to 28, at college station. The Bears' win placed them in fourth place in the Southwest conference.

The Texas Christian Horned Frogs will play the Texas Longhorns at Austin.

Before their win from Southern Methodist the Porkers were tied for first place with Texas. Although the Razorbacks were most of the time, they were never out of danger. It took an airtight defense to stop a Mustang threat late in the second half.

Poole of Arkansas led the scoring with 12 points. Capt. Haren was the Mustangs' high scorer with eight points.

Bears' Troupe. The Baylor Bears showed their best form of the season in defeating the Aggies. They took a 13-point lead early in the game and held a 26-8 advantage at the intermission. The Aggies found the basket consistently in the second period, but were never able to overtake the Bears.

Then Alford, Bear forward, made good seven of his 15 throws for field goals and sank two free tosses to lead the scoring with 16 points. Capt. Monte Carmichael shot 10 points for the Aggies.

The Standings:
Team— W. L. Pct.
Arkansas 4 1 .800
Texas 3 1 .750
Rice 2 2 .500
Baylor 3 4 .429
Southern Methodist 2 3 .400
Texas Christian 1 3 .250
Texas A. and M. 1 5 .167

SUDDEN DEATH OF CURTIS BROUGHT GRIEF TO CAPITAL

WASHINGTON, Feb. 8.—(P)—The sudden death of former Vice President Charles Curtis brought expressions of grief today from official Washington where Curtis had served at the capitol for more than 30 years.

President Roosevelt expressed his deep regret at the sudden death of Charles Curtis.

"I am deeply distressed to learn of the sudden passing of my old friend, Charles Curtis," the president said. "Whether they knew him as a senator, as the vice president of the United States, or as the man who was in the White House, his legion of friends will remember him, always affectionately, and will mourn his passing."

Vice President Garner said he was "very sorry to hear of his predecessor's death."

"I was always very fond of him," Garner said. "I was associated with him in the house and then in the senate. He was a man of great character and a great public figure."

Senator McNary of Oregon, who succeeded Curtis as Republican leader of the senate, said: "He was a quiet, yet successful Republican leader of the senate. He made a popular and efficient presiding officer when he was vice president. He was an able and lovable character."

Senator Capper of Kansas, who grew up with Curtis in Topeka, and served as his senate colleague for years: "I am terribly sorry. I was at his birthday party only a few days ago. It comes as a great shock to all of us. He had a wonderful record in public life. He was the first native of Kansas elected senator from his state. He had a high regard and great affection for him."

Senator McGill of Kansas: "That is very sad news indeed. He had been a member of congress and a public figure from the time I was a boy."

Senator Harrison (D-Miss.): "He was one of the most popular vice presidents we ever had. He was a fine statesman and a conscientious public official."

CHARLES CURTIS WAS STRICKEN BY HEART ATTACK SATURDAY

WASHINGTON, Feb. 8.—(P)—Charles Curtis, the only man of Indian ancestry ever to be vice president, died at 10:25 this morning of a heart attack. He was 76.

A cold had confined him to bed for several days. He had been looking forward to reentering the political arena, where for 22 years he was a dominant figure, as representative and senator from Kansas. This time his hope was to help bring the republican presidential nomination to his friend, Governor Alf M. Landon of his state.

Believing him better, his sister—Mrs. Dolly Gann, with whom he lived—had gone shopping. Only a maid was beside him at death.

Democrats and republicans alike mourned his passing. Leaders of his party were counting on him in many years to be a dominant figure, as representative and senator from Kansas. This time his hope was to help bring the republican presidential nomination to his friend, Governor Alf M. Landon of his state.

"I am deeply distressed to learn of the sudden passing of my old friend, Charles Curtis," said President Roosevelt.

"Whether they knew him as a senator, as the vice president of the United States, or as the man who was in his own right, his legion of friends will remember him, always affectionately, and will mourn his passing."

"He was a fine man and a good friend," said Vice President Garner.

When he left office in 1933, Mr. Curtis had served in congress for 22 years, as a member of the family of Speaker Longworth at the same time.

Mrs. Gann maintained her composure. The differences never were amicably settled. Many hosts averted the question of the family feud. The president's family and the family of Speaker Longworth at the same time.

Richard Bryant, negro,

JUDGE J. F. STOUT HONORED ON HIS 90TH BIRTHDAY THURSDAY

MASONS AND LAWYERS CALL DURING AFTERNOON TO EX- TEND CONGRATULATIONS

Judge J. F. Stout was ninety years old on Thursday and despite the fact that he has been a shut-in for the past several years, this venerable and respected Corsicana pioneer lawyer and Mason and citizen, is as alert in mind and keeps up with the trend of the times as well as most men who are on the street daily and who are in the enjoyment of their middle-age strength. And no more cheerful or contented person can probably be found in all the city than this man who has grown old gracefully and with evident pleasure in the companionship of his family and those friends who call to see him often.

This 90th birthday of the venerable judge was made even happier than usual by a visit of Masons and lawyers and other friends during the afternoon hours. It has been the wont of local Masons for many years to visit their brethren on their birthdays and it has been a pleasure for these men to visit Judge Stout for they are always given a most cordial Masonic as well as citizenly greeting. There is no set program in these visits—just a band of friendly brothers who call to convey and extend their greetings and congratulations on their host having reached another milestone. Just one of the little things that make life and living better for all who have a part therein.

Bar Members Call.
This year the local Bar Association members—many of whom are also high in Masonry—called on their colleague who in years when most of these members were mere striplings was a tower of strength in the Navarro county bar—known in its all the land. The call offered words of congratulations on the hearty age reached by Judge Stout and enjoyed friendly conversation and banter.

The visitors were treated to coffee and cakes passed by the judge's home wife and daughter in the home. Mrs. W. A. Wright. The occasion was marked by a congeniality seldom found among as many men in these times of strife and diverse ideas and opinions. Judge Stout has been a man of settled convictions all his life and until this day he is honored and respected for it, even though one may differ on the subject under discussion. And the venerable judge likes a man better when he has his own convictions and speaks them out.

Masonic Greetings.
As a mark of esteem and respect the Masonic call was made by Worshipful Master Ed. M. Polk, Jr., of Corsicana Lodge No. 174, A. F. & A. M., presented Judge Stout with the following greetings from his lodge:

Hon. J. F. Stout, City.
My Dear Brother,
Induced by respect for your public and private character as well as the relation in which you stand with the brethren of our order, I beg to leave on behalf of Corsicana Lodge No. 174, A. F. & A. M. to offer you our most sincere congratulations on this your ninetieth birthday. You have seen your mother, when she first held you in her arms, have looked down the span of years your life would encompass and have foreseen the marvelous changes to take place in the world during that period, she would have been afraid to set your feet upon the walks of life. As the child of today accepts as a matter of course the things which to you are miracles. Yes, miracles as great as those performed in the days of old. You have seen the railroads, the electric car, the automobile, the trolley, the submarine. You have seen the old melody and the tinkling spinet change to mechanical instruments and the graphophone and the radio of today. You have witnessed the fall of governments, the changed map of the world, the triumphs of science. You have seen the prophecy of Hanson come true through those beautiful words of the Bible, where the poet says:
"For I dipped into the future,
Far as human eye could see,
Saw the vision of the world, and
all the wonders that would be,
Saw the heavens filled with commerce,
argosies of magic sail,
Pilots of the purple twilight,
dropping down with costly bales."

And sadly you have also witnessed the fulfillment of those other two lines of this vision:
"Heard the heavens filled with shouting,
and there rained a ghastly dew
From the nations' airy navies
grappling in the central blue."
However, through all these changes, which have come with such rapidity as to be almost confusing to the human mind, we are happy to know that you have maintained a calm spirit and a vigorous body, which has readily adapted themselves to conditions, making use of the best and rejecting that which was worthless.

Sincerely and fraternally yours,
CORRICANA LODGE NO. 174,
A. F. & A. M.
By Edward M. Polk, Jr.,
Worshipful Master.
Greeting from the Navarro County Bar Association also presented their aged fellow-member with greetings from that body in the following interesting letter, handed him by Beauford H. Jester, president of the Association:
February 6, 1936.

On the occasion of this your ninetieth birthday the Navarro County Bar Association wishes to make this manner of acknowledgment of its great appreciation

THREATS TO "TAKE A WALK" NOW COMING FROM REPUBLICAN PARTY RANKS; POLITICS BOIL

ENFORCEMENT LAWS ON MARBLE MACHINES REPORTED GAINING

AUSTIN, Feb. 7.—(AP)—Reports to the attorney general's department indicated today enforcement against marble machines had tightened on the basis of recent appellate court decisions.

Vernon Cox, assistant to the attorney general, said a recent action by the supreme court materially strengthened the position of local prosecuting attorneys who sought to enforce anti-gambling statutes to control the machines.

Refusal of the supreme court to grant a writ of error in a Waco case, upheld a ruling which classified automatic pay-off marble machines as gambling devices.

The test case, dealt only with automatic pay-off machines. Opinions of the appellate court, however, have held other types to be outlawed.

Validity of an injunction issued in Limestone county restraining officers from confiscating the machines formed the basis for the suit. Cox said the courts held officers should not be restrained if they followed statutory procedure.

Procedure Is Explained.
Articles on the procedure, he explained, required five days of notice before a court hearing to confiscate the machines. As gambling devices should be confiscated. In the suit, he said, the state conceded officers should be restrained if their acts contravened the procedure.

Despite the rulings, he said, a practical difficulty in obtaining convictions arose from a legislative act levying an occupation tax on the machines.

While the appellate courts held that the tax did not legalize the devices, he explained, exhibition in state tax receipts made juries reluctant to convict. The act levied a tax on the machines for operating a machine licensed by the state.

Some Confusion Exists.
While there was no conflict, some confusion existed from the fact that civil appellate courts had, in effect, construed a criminal statute over which the court of criminal appeals would be supreme.

Cox said the highest tribunal had intimated, however, its holding in a test case would be similar to that of the civil courts. In case of which legality was not a direct issue, the opinion hinted that the court believed the marble machines were gambling devices and therefore outlawed.

The court's civil appeals opinion was based in part on an earlier ruling of the court of criminal appeals that slot machines were illegal although not named in the gaming statutes.

Heavy Buying In Retail Lines Is Noted Past Week
NEW YORK, Feb. 7.—(AP)—Heavy buying of winter merchandise by retail trade at a high level last week, Dun and Bradstreet reported today in their weekly summary of trade conditions.

Characterizing it as a period of "progressive trade movements," the report noted a moderate advance in industrial operations and generous mail reorders in wholesale markets.

By LEONARD B. THUBERT Associated Press Staff Writer. WASHINGTON, Feb. 7.—(AP)—

Grumblings in the ranks and another threat to "take a walk" came today as party chieftains sharpened their wits and their words in the campaign for and against the new deal.

Simon D. Fess, former Ohio senator and former republican national chairman, hinted he may "take a walk" if Senator Borah (R-Ida) becomes his party's nominee for the presidency.

Senator Norris (R-Nebr) supporter of President Roosevelt, nevertheless hit again at James A. Farley's dual role as postmaster general and democratic national chairman.

"A man managing a campaign ought not to be postmaster general," he said on the senate floor yesterday.

At far-apart points, the administration was attacked by Colonel Grank Knox, publisher, often listed as a republican presidential contender; Senator Dickinson (R-Iowa), who also has been mentioned frequently as a possible nominee; and Jett Shouse, president of the American Liberty League, at whose dinner table Alfred E. Smith uttered the threat to "take a walk" if the democrat in convention endorsed the new deal.

Fess, announcing his opposition to Borah, declared the latter's nomination would "give new meaning to Smith's taking a walk."

He said his former colleague would go down to defeat in Ohio but that he might get some delegates from the Cleveland, Akron, Youngstown area.

Fess said he himself would work for an unopposed delegation to the national convention. (Borah is planning to campaign for pledged delegates).

"I don't want to vote for a new dealer," said Fess in an interview, "why not vote for President Roosevelt? If the liability for the new deal is to be placed anywhere, let it be placed on the democrats, not on the republicans."

He declared he personally opposed Borah but was forced into conflict with him "because of his policies."

"Whether the inflation ideas of Borah will be objectionable to labor is to be seen. Ohio was to elect a free silver in 1896 and would not be for a silver debase today."

Former Corsicanan Died Friday Night In Corpus Christi
L. J. Ashmore, former resident of Corsicana, died at his home in Corpus Christi, Friday night, following several days' illness. Funeral services will be held Sunday afternoon at 4 o'clock with burial in Rose Hill cemetery at Corpus Christi.

Mr. Ashmore had lived in Corpus Christi several years but before moving there he was a resident of Corsicana.

Surviving with his wife, formerly Martha Jackson of Corsicana; two sons, Dr. A. J. Ashmore, Corpus Christi; Clarence Ashmore, Corpus Christi; and a daughter, Mrs. A. J. Haddon, Corpus Christi; a brother, L. W. Ashmore, Corsicana, and other relatives.

STATESMANSHIP NEEDED BY FARMERS TO ACCOMPLISH ENDS

MULTIPLE PROBLEMS CON- STANTLY ARISING RELATED AT JACKSON MEETING

JACKSON, Miss., Feb. 7.—(AP)—Agricultural statesmanship is needed to determine and accomplish the correct solution of America's multiple farm problems, a L. Wilson, assistant secretary of the department of agriculture, told agricultural leaders from 13 Southern states attending the closing session here today of the 37th annual conference of the Association of Southern Agricultural Workers.

Outlining recent institutional changes in agriculture and listing the pressing problems and the numerous remedies that have been advanced, the farm expert asserted they provide a stirring challenge to the agricultural colleges and extension forces to produce statesmanship in agriculture.

Wilson's address provided a fitting climax for the three-day session, which also has been given over to the formation of a permanent program for a better farm life.

Election of officers and several sectional meetings remained before the more than 800 delegates will disband and carry back to their home states statistical data, check-ups and experiences of their neighbors.

New Goals Listed.
As new goals in national agriculture Wilson listed the following:
1. Providing a favorable economic environment for agriculture.
2. Securing the widespread adoption of efficient management and production methods.
3. Bringing about effective group action through organization.
4. Bringing about a satisfactory social environment and standard of living for the farmer.

Discussing replacement of the defunct agricultural adjustment act, Wilson said the new legislation to meet the emergency created by the supreme court's invalidation of the processing tax benefit payment program will be a success if it is administered.

Former Corsicanan Died Friday Night In Corpus Christi
L. J. Ashmore, former resident of Corsicana, died at his home in Corpus Christi, Friday night, following several days' illness. Funeral services will be held Sunday afternoon at 4 o'clock with burial in Rose Hill cemetery at Corpus Christi.

Mr. Ashmore had lived in Corpus Christi several years but before moving there he was a resident of Corsicana.

Surviving with his wife, formerly Martha Jackson of Corsicana; two sons, Dr. A. J. Ashmore, Corpus Christi; Clarence Ashmore, Corpus Christi; and a daughter, Mrs. A. J. Haddon, Corpus Christi; a brother, L. W. Ashmore, Corsicana, and other relatives.

Mr. and Mrs. Charles Bee, Jr., Albert Ashmore, Miss Fay Ashmore, Mr. and Mrs. Elbow Nease, and Mr. and Mrs. Homer McLeod left Saturday afternoon for Corpus Christi to attend the funeral.

For County Treasurer.
In another place in today's paper will be found the formal announcement of Willie H. Massey as a candidate for the office of treasurer of Navarro county, subject to the action of the Democratic primaries.

Mr. Massey is a native of Navarro county, where he has lived his entire life. He is now residing at Powell where he is well and favorably known. He is a married man and is the father of five children. He has been engaged in the mercantile business which occupation he was forced to quit when last April he suffered the misfortune of losing his leg as the result of an accidental discharge of a shotgun.

Not only does the requirement concern earned income, but aid received from any source must be listed on the preceding application. Mr. Carpenter declared: "The cash or security clause in the new law necessitates that applicants be able to tell the exact amount of money they have in the bank. They should be prepared to give a description of all securities owned, serial numbers, from whom purchased, etc." he explained.

"Not only does the requirement concern earned income, but aid received from any source must be listed on the preceding application. Mr. Carpenter declared: "The cash or security clause in the new law necessitates that applicants be able to tell the exact amount of money they have in the bank. They should be prepared to give a description of all securities owned, serial numbers, from whom purchased, etc." he explained.

GOVERNMENT MOVES CAUTIOUSLY TO PREVENT TAXPAYING WRATHS IN FINANCING OF FARM PLANS

WASHINGTON, Feb. 7.—(AP)—

Major moves designed to avert any wrathful reaction from the taxpayers and consuming public were in the making today as the government proceeded with its farm and financing plans.

Senator Wagner (D-N.Y.), with the support of other prominent Democrats, led a movement to alter the newest substitute for AAA in an effort to allay any apprehension that "scarcity" economics would be exacted from farmers.

2. Democratic leaders were open in forecasting that the administration would not ask any taxes this year to finance the bonus. The tax bill expected to be transmitted to Capitol Hill next week would be largely limited to the \$400,000,000 or \$500,000,000 estimated necessary to finance the new farm program.

The sentiment in congress for making the tax bill as small as possible in a campaign year became a powerful insistent demand. The powerful house steering committee went on record, in secret session, as opposed to new taxes now to pay the soldiers' bonus of more than \$2,000,000,000. Chairman Sabath (D-Ill.) who disclosed the vote, said:

"We understand the president has evolved a scheme by which we could find the money somewhere else."
The Wagner suggestion gained support as the senate drove into further debate on the new farm plan which is being piloted by Senator Smith (D-Sc) toward an expected vote next Monday or Tuesday.

(The bill would provide a system of subsidies to farmers who would co-operate in "conserving soil" by withdrawing acreage from commercial crop production. The government would grant the subsidies either directly to the farmer or indirectly through states which desired to co-operate in the plan. In apportioning the money, officials would take into consideration acreage and value of major crops produced by farmers in a period of the past.)

Senator Wagner wants to make sure that a normal production period be chosen as the basis for subsidies—not a period when crops were short. He seeks to "allay any apprehension that this is a program of scarcity."

Stove Explosion Fatally Burned Hunt Couple
GREENVILLE, Feb. 8.—(AP)—A stove explosion today probably fatally burned Mr. and Mrs. G. T. Parsons at their farm home 14 miles southwest of Greenville. Their baby son, G. T. Parsons, Jr., 2, also was burned seriously.

The blast occurred when Parsons, lighting a fire in the kitchen stove in preparation for the noon meal, poured kerosene on smoldering embers.

Physicians at a Greenville hospital said Parsons, 23, and his wife, 20, had little chance to recover but the baby probably would live.

Jack Rogers, 17, a neighbor, saw smoke pouring out of the house and heard screams. He ran into the flaming kitchen and rescued the couple and their baby, teaching burning clothes from their bodies after removing them from the house.

He then transported them to the home of Mrs. Parsons' parents, Mr. and Mrs. F. M. Payne of Caddo Mills. From there they were taken by ambulance to the Greenville hospital.

Flames Destroy And Damage 2 Freestone County Residences
FAIRFIELD, Feb. 8.—(AP)—Early Monday morning the large country home of Mrs. David Nettie in the Burleson community was destroyed by fire, which was caused by exploding oil as it was poured on live coals in the fireplace by Edward Nettie, a son of Mrs. Nettie. The flames spread rapidly and he was rescued by negroes on the place. He was seriously burned, and is now in a dangerous condition in a Corsicana hospital.

Mrs. Nettie and daughter, Miss Della, escaped from the house in their night clothes, and their clothing and all household goods were lost.

Friday night, about 8:30, the dwelling of E. H. Beauchamp caught fire from an oil stove. Wall paper, window shades, and bed clothing were destroyed, also doors and windows. Damage was covered by insurance.

Quick work by citizens saved the house, which if burned would have probably destroyed the Kirgan residence across the street.

YEARLY INCOME OF PENSION APPLICANTS MUST BE APPROVED
AUSTIN, Feb. 8.—Applicants should be able to prove their yearly income because the old age pension law provides that \$380 yearly for single persons and \$720 yearly for married couples must be the total of money received by applicants from all sources including the state aid, Arville S. Carpenter, executive director-designate of the old age pension department said today about the new law.

"Applicants should be prepared to make a full and complete statement of all earnings for the two years immediately preceding application," Mr. Carpenter declared.

"The cash or security clause in the new law necessitates that applicants be able to tell the exact amount of money they have in the bank. They should be prepared to give a description of all securities owned, serial numbers, from whom purchased, etc." he explained.

"Not only does the requirement concern earned income, but aid received from any source must be listed on the preceding application. Mr. Carpenter declared: "The cash or security clause in the new law necessitates that applicants be able to tell the exact amount of money they have in the bank. They should be prepared to give a description of all securities owned, serial numbers, from whom purchased, etc." he explained.

JUST FOLKS

(Copyright, 1935, Edgar A. Guest.)

CHANGEABLE HOLLYWOOD

"And how's the little wife?" said I.
He sadly looked at me.
"I have no wife," he made reply.
"Since yesterday at three."

A stranger I in Hollywood,
Mid-fashioned in my way.
I thought it proper that I should
Say, "How's the wife, today?"

But such a question, kindly
meant,
Has caused me so much pain,
Surprise and deep embarrassment
That from it I refrain.

DUMB LIVING CONDITIONS

The chief cause of slums, declares Nathan Straus of New York City, is "unbridled greed." Doubtless greed has something to do with it, but isn't the principal cause simply a lack of intelligence? Private intelligence and public intelligence. Because quite aside from morals, slums ruin neighborhoods, lower rents and business profits, breed disease and crime, impose loss on property-owners and expense on the whole community. This has been proved in scientific check-ups.

Mr. Straus himself clearly realizes it. He concludes that "it requires no noble sentiment for our citizenry to become determined upon decent living conditions for everyone, but just plain self-protection and common sense."

He wants the plague spots cleared out and cleaned up, old shacks being replaced by parks or a few large buildings with open spaces between them, and inexpensive modern houses built on new open land.

COMPULSORY DRIVERS' REFORM

Motorists' consciences must be bothering them. A widespread poll shows they agree with the rest of the public that driving ought to be reformed, and are willing to have it done with a club.

A big majority of the car owners voted in favor of uniform driving laws, strict drivers' tests, severe penalties for lawless driving, special marks for offending motorists' cars, compulsory liability insurance for compensation of victims, and mechanical governors on the motors to keep speed to a 50-mile limit.

THE YEAR OF ARGUMENT

When the Interior Department appropriations bill came up for discussion recently, there were 65 official requests for speaking time. This would have indicated, ordinarily, an overwhelming interest in the measure. As a matter of fact, only about half a dozen really wanted to speak on the bill before the House. All the rest were 'rarin' to make campaign speeches.

Yes, the political campaign is under way—and how! It is a pity. Already political controversy is at a stage that it would ordinarily reach only in October. It will be an exciting spring and a terrible summer.

By fall the disputants may have worn each other out and the emotions of the electorate may be exhausted. And that will be a good thing, if the electorate, in self-defense, falls back upon its own reasoning powers.

People are coming, however, to raise serious questions of ethics, patriotism and national policy. New standards must be established in such matters.

CHANGING HORSES IN MID-STREAM

—By Clive Weed

**HITLER'S FIRST HUNDRED YEARS.**

Adolf Hitler has more patience than the world credits him with. Past utterances have given the impression that he regarded Germany as almost completely won over to Nazism and that he chafed at the thought of any remaining opposition. His oratorical review of his three years' reign on Jan. 30 revealed a longer view and a slower tempo.

The "better part of the people" were with him from the first, he said, but diehards remain. Younger generations must continue the fight, and "gradually one people will emerge—one mind, one spirit, one will and one energy."

In one year after he took charge of Germany, he says, the Nazis won one per cent of the remaining opponents to their cause. In two years they won two per cent. "In 100 years we will have won 100 per cent."

This sounds like a Chinese philosopher discussing the inevitable absorption of invaders, in the course of centuries. Hitler had previously spoken of Nazism as lasting for a thousand years, but that prophecy was regarded as blatant egotism. Is Nazism really growing philosophical?

It is well known that the first hundred years are the hardest. And if Hitler and his successors can continue their policy and rule that long and attain national unanimity by the year 2033, they will probably deserve another 900 years.

PRICE ANALYSIS.

A presidential candidate suggests that business men stamp somewhere on every article they sell the amount of hidden taxes paid on it. The idea is to make the consumer tax-conscious and tax-indignant.

But why stop there? Why not stamp on the article a complete analysis of the price the consumer pays, showing what the producer of raw materials, the manufacturer, the wholesaler, the middleman and the retailer received for it.

Also, there should be some way of showing, along with these details, what the taxpayer gets for his tax payments—hidden or seen. Only then will it be possible for him to see what proportion of his cost of living goes to taxes, to profits, and to services received. If the items balance pretty well, he should have no complaint. If something is badly out of balance, the consumer would know better what is wrong and how it may be righted.

FORMER CORSICANA YOUTH HONORED BY ELECTRIC CONCERN

The following from the Port Neches Chronicle of January 24 will be read with interest in Corsicana where Wm. Travis Brooks was born and where his parents, Mr. and Mrs. Alfred L. Brooks, resided many years. The young man was also named for his grandfather, the late Travis G. Brooks, pioneer Corsicana business man.

William Travis Brooks, son of Mr. and Mrs. A. L. Brooks of this city, who is senior in the engineering class at Texas University was one of the four boys chosen by General Electric company from the university the past week. Each year 100 boys are picked from the leading universities of the country to start work in the General Electric laboratories in June. General Electric laboratories are located at Schenectady, New York.

William Travis is a graduate of Port Neches high school, attending Allen Academy at Bryan and Lamar College at Beaumont before entering the engineering school at Texas University. He received three years of apprenticeship at the Texas company machine shops here, to help him attain the high standard in school.

This is the highest honor a graduate can receive and the University has not had a representative since 1928.

DRIVERS OF MOTOR VEHICLES FACE JUDGE IN TRAFFIC CASES

Seven Corsicana drivers faced charges in the Corsicana Corporation Court Friday of failing to come to a stop before making right and turn on red light as police officials continued their campaign to make driving safer in the business district.

A fine was assessed in one case, two dismissed and four others were still to face Judge A. H. Willie in court. Of the five arrested Wednesday, four were fined and one case was dismissed. The minimum fine for the offense is \$5.

A number of other offenders faced the judge Friday, including two for disturbance of the peace, one for intoxication, two for parking automobiles too near fire plugs, one for speeding and one for blocking an alley with an automobile.

Three stray dogs were reported killed by policemen Thursday as the drive was continued to rid the city of undesirable animals.

Funeral services for R. R. Hubbard, who died in Tyler Thursday, were held at Oakwood cemetery here Friday morning at 11 o'clock where interment was made. The rites here were conducted by Rev. J. N. R. Score, Rev. Worth Metho and assisted by Rev. T. Edgar Neal, pastor of the First Methodist church.

Surviving are his wife, formerly Miss Ida Cochrum, of Corsicana, and one daughter, Mary Ida Hubbard, both of Tyler.

Funeral services for R. R. Hubbard, who died in Tyler Thursday, were held at Oakwood cemetery here Friday morning at 11 o'clock where interment was made. The rites here were conducted by Rev. J. N. R. Score, Rev. Worth Metho and assisted by Rev. T. Edgar Neal, pastor of the First Methodist church.

Edward D. Lea to Lea R. Ellis, 1-384 interest in 169.05 acres William Meador and Joseph Bragg survey, \$10.

Aubrey Justice Court.
Aubrey Widener and J. T. Arnett were bound over to await the action of the grand jury at the conclusion of examining trials Thursday afternoon before Judge W. T. McFadden on formal charges of burglary and theft in connection with the alleged entering of a house belonging to Tom Vandergriff several miles east of Corsicana a week ago. A saddle reported taken from the premises was recovered near Navarro this week by Deputy Sheriff J. M. Westbrook and Bruce Nutt, chief of city detectives. Bonds of \$750 were set in the burglary cases and \$500 bonds were set in the theft charges.

A complaint was filed before Judge McFadden against a white man for the alleged theft of 80 pounds of copper wire from J. W. Edens, Sr. The arrest was made by city officers.

A negro was charged with violating the prohibition laws Friday morning before Judge McFadden.

Pure Oil Employee Died Suddenly

MEXIA, Feb. 7.—(Spl.)—John DeBorde, 55-year-old engine and rig repairman for the Pure Oil Company, died suddenly at 10 p. m. Wednesday of a heart attack at his home in the Shiloh community. Mr. DeBorde had been an employee of the Pure for eight years.

Funeral services will be held at 2 p. m. Friday at the home of W. H. Filba, near the ball park, with burial in a cemetery between Fairfield and Teague. His wife and several children survive.

RESTORATION WORK ON FORT PARKER TO BE UNDER WAY SOON**TEN THOUSAND DOLLARS APPROPRIATION FOR PURPOSE HANDED BOARD**

MEXIA, Feb. 7.—(Spl.)—The state's \$10,000 appropriation for restoration of old Fort Parker has been turned over to the state board of control, and as soon as plans are approved by that board a contract will be awarded for restoration work. This announcement was made Tuesday by El L. Connally, Groesbeck, chairman of the joint Mexico-Groesbeck committee.

The centennial board of control, of which Lieutenant Governor Walter Woodul is chairman, made the allocation several months ago, but only last Monday sent to the state board of control the official order transferring the funds.

John F. Wallace, Teague, member of the state board of control is taking a particular interest in the work so close to his old home town and confers frequently with friends in Limestone county about the matter. John V. Singleton, Waxahachie, is head of the board of control division on centennial buildings, and will be personally in charge of the work. Both Mr. Wallace and Mr. Singleton asked Mr. Connally's committee for a recommendation for an architect and the committee suggested Jess F. Denning, of Mexia, who has already made plans for the site.

The fort is to be restored in as near original state as possible on a five-acre plot which is part of the Fort Parker state park, four miles from Groesbeck and one mile off state highway No. 14. The highway department is expected to build the spur road to the fort site.

Construction of the fort from logs will require about 60 days and should be completed in time for the Fort Parker celebration which starts on May 18, just 100 years after the battle of the Indians at the massacre of Parker's fort. The "Captive Princess" is the title of the pageant to be given at that time.

Already the CCC camp has fenced the five-acre tract which is about 1 1-2 miles from the main body of the state park and Springfield lake. Members of the joint committee include: E. L. Connally, Groesbeck, chairman; C. S. Bradley, J. E. Bradley, Groesbeck; J. K. Hughes, M. M. Brown, John Phillips, C. L. Tamm, Mexia, and H. F. Mace, city manager of Mexia. Jack Hawkins, Groesbeck, chairman of Limestone county centennial advisory committee, are ex-officio members.

Officers Seeking Hi-Jackers After Car is Abandoned

City and county officers were engaged Friday in an extensive search for two alleged hi-jackers who abandoned an automobile here early Thursday morning after robbing two parties in the East Texas oil fields Wednesday night.

The automobile was located in East Corsicana Thursday morning where it had been abandoned by two men. One of them had asked permission to leave the car for time until they could secure some gasoline for it, but failed to return and the residents of the house nearby called police.

Chief of Police Will S. Knight ordered the car removed to a garage. It was discovered that the back glass apparently had been shot out, and a pistol shell hulls were found in the car.

A little later information was received from the East Texas officers stating that the car had been stolen by two of who had committed two robberies in the vicinity Wednesday night, taking the car from one man and more than \$100 from another.

E. A. Leonard of Kilgore, owner of the car, arrived in Corsicana Friday morning and reclaimed his automobile, and conferred with local officers on the description of the men who robbed him Wednesday night.

MAN WAS PAINFULLY BURNED AND HOME IS DESTROYED BY FIRE

Edward Nettle of the Streetman community is in the Navarro clinic suffering serious burns from his waist down as a result of a fire at the home of his mother, Mrs. Dave Nettle, earlier in the week when their home was destroyed with a loss estimated at \$4,000.

The fire is reported to have started when the burned man attempted to start a fire with kerosene and the can of oil exploded, setting his clothing on fire. Trying to smother the flames, Nettle is said to have jumped into a bed.

No insurance was carried on the house and contents, it was reported, and number of valuable papers were also lost.

FARM TAX BILL IS ESTIMATED REQUIRE LEAST HALF BILLION

WASHINGTON, Feb. 7.—(AP)—President Roosevelt reserved decision today on the farm tax bill but estimated a necessity for \$500,000,000 for this program.

He told newsmen that no decision has been reached on whether taxes will be necessary to meet the cash payment of the bonus. What form the tax program might take was not disclosed. The soil conservation-subsidy farm bill, which the taxes would seek to finance, now is pending in the senate.

Out of yesterday's inventory of federal spending, Mr. Roosevelt said had come a decision to shift some relief allotments to the Works Progress administration to take care of unemployment benefits.

LETTERMEN RECEIVE SWEATERS; NORWOOD WAS MAIN SPEAKER

SEVERAL CORSICANANS APPEARED ON GRID PROGRAM

State Home football club for last fall was honored at a stag party banquet held in the State Home dining room Saturday night with officials of the Home, trustees, city and county officials and others as special guests. A sumptuous banquet was served by the girls of the Home.

J. S. Halley, superintendent of the Home, was toastmaster of the occasion and the guests were welcomed by B. A. Jeffries, principal of the Home school. Principal Jeffries also paid a glowing tribute to the boys of the football team as fighters.

E. D. Clem, coach, All-Southwestern guard at Baylor University a few years ago, declared the boys played with one object in mind last fall—teamwork, and the building and improving themselves both mentally and physically. Introduced by the following boys received letters and sweaters:

Haley, Childers, Gour, Davis, Sharp, Simpson, Wilkins, Lane, Kello, Cardwell, Williams, Hamill, R. Martin, C. Martin, and Smith. Beard, team manager, also gets a sweater. Only a few of the lettermen will return for the 1936 team.

Grover Simpson thanked the officials and J. N. Garitty, strong supporter of athletics at the home, for the support and co-operation shown them during the past season and all the citizens of Corsicana who aided the club during the past season.

Dr. J. A. Jones, representing the fans, presented the Home with a huge down marker, similar to one he presented to Corsicana high school.

Norwood, main speaker, of Corsicana schools was the principal speaker for the occasion. In the beginning of his remarks, he declared that a community with one outstanding football club is fortunate and he was to be congratulated, but Corsicana is peculiarly situated in a football way with three outstanding clubs—State Home, I. O. O. F. Home and Corsicana high schools—all among the leaders in their respective circles and frequent winners of championships, reflecting much credit to the community.

Superintendent Norwood stressed the need for the observance of the laws of right living and pointed out the results of self-control, health, kindness, consideration, sportsmanship, fair play, self-reliance, duty, team-work, good workmanship, and loyalty to fellowmen and to right convictions. He pointed out that all of these things were fostered and aided by the lessons learned in football.

District Judge J. S. Callcutt, one of the trustees of the Home, declared football was a manly sport and that there must be something good in it or it would not have extended into all schools of the country as it has. He said that the game taught obedience to legally constituted authority, and caused the participants to harmonize and co-operate for the common good.

G. H. Brown, Navarro county school superintendent, urged clean living and a closeness to God. Pierce on Program.

John A. Pierce, coach of Corsicana high school, declared football was the finest game a boy can participate in and that lessons are learned in football that would not be learned anywhere else. He charged the boys finishing their careers in the Home that they drive to get better in every way as a person either gets better or poorer—there is no middle ground.

Others making short talks included E. E. Sheehy, trustee of the Home; J. N. Garitty for whom Garitty field was named, and C. E. Couch, superintendent of the State Home. Other visitors introduced included L. F. Flynn, Joel C. Trimble, director of the State Home band; F. A. Pierce, Worth Bishop, coach of the I. O. O. F. Home club; Jack Megarity, county commissioner; J. S. Murphree, county clerk; J. A. Smith, W. Ellis, president of the Corsicana Chamber of Commerce; Pat Ramsey, general secretary of the Corsicana Y. M. C. A.; John P. Garitty, city commissioner, and Paul Moore, Corsicana Sun sports editor.

The invocation and benediction were given by Rev. E. T. Miller, pastor of the First Baptist church. The attractive table decorations were prepared under the direction of Mrs. Ross Harris, matron, while the menu was furnished under the direction of Miss Jackson, dietitian of that Home.

LIONESS

(Continued From Page One) at a hospital.

As the animal made its way up the crowded aisle, its two trainees, Grover and Anita George, followed closely. Meanwhile, on the stage, two comedians carried on a lighthearted conversation.

In the lobby of the theatre was Patrolman Alexander Jezerski who had just stepped in to get warm. He heard the cries of the audience and in a minute the lion was in the lobby with him.

The theatre-goers left the lobby to Patrolman Jezerski, Ruthie and the two trainers. Officers and ticket takers fled to the outer lobby, holding the doors to prevent the lioness escaping into the street.

George fired blanks at Ruthie from his pistol. Finally, Jezerski said, Mrs. George told him the lioness would have to be shot. The officer fired one time, hitting Ruthie in the shoulder.

The lioness was loaded into a cage and taken to an animal hospital.

Income Tax In A Nutshell

WHO? Single persons who had net income of \$1,000 or more or gross income of \$5,000 or more, and married couples who had net income of \$2,500 or more or gross income of \$5,000 or more must file returns.

WHEN? The filing period begins January 1 and ends March 16, 1936.

WHERE? Collector of internal revenue for the district in which the person lives or has his principal place of business.

HOW? See instructions on forms 1040A and 1040.

WHAT? Four per cent normal tax on the amount of net income in excess of the personal exemption, credit for dependents, earned income credit, dividends of domestic corporations subject to taxation, and interest on obligations of the United States and obligations of instrumentalities of the United States. Surtax on surtax net income in excess of \$4,000.

Income-Tax Don'ts

DON'T prepare your return without first studying the instructions on the form.

DON'T procrastinate. Early assembling of data permits a careful consideration of all tax problems.

DON'T destroy the memoranda from which your return was prepared.

DON'T omit explanation when such information is essential to an intelligent audit. Attach memoranda to your return.

No. 11

Exemption Allowed Head of a Family.

A head of a family is defined by income-tax regulations as "an individual who actually supports and maintains in one household one or more persons who are closely connected with him by blood relationship, relationship by marriage, or by adoption, and whose right to exercise family control and provide for the dependent individuals is based upon some moral or legal obligation." The definition where the head of a family is \$2,500. The phrase "in one household" may be interpreted as meaning the taxpayer's personal residence, an apartment, rooms in a boarding house, hotel, etc.

Under certain circumstances it is not necessary that the taxpayer and his dependents live under one roof during the entire taxable year in order that the taxpayer may claim the exemption. If the common home being maintained, the parent is away on business, or a child away from school, the visitation exemption is allowed. Moreover, if a parent is obliged to maintain his dependent children with relatives or in a boarding house, while he lives elsewhere, the exemption still applies. If, however, without necessity, the dependent makes his home elsewhere, the benefactor is not the head of a family.

The same ruling applies to husband and wife "living together." If occasionally and temporarily the husband is away on business or the wife on a visit, the common home exemption still applies. The \$2,500 exemption will apply. The unavoidable absence of husband or wife at a sanatorium does not preclude the exemption. But if the husband continuously makes his home at another place and is not living together within the meaning of the "venue act."

No. 12.

Gross Income, Net Income, and Surtax Net Income.

Three of the terms used in the income-tax laws are gross income, net income, and surtax net income, should be noted particularly important to the whole subject of income tax. Gross income includes in general all income from any source whatever, unless from any source by law. The gross income of the usual business consists of the gross profits on sales, plus the income from investments and incidental or outside operations or sources. The return must show the gross sales purchases, and cost of goods sold, to reflect income.

The gross income is necessary at the beginning and end of each taxable year. A lawyer, doctor, architect, physician, dentist, clergyman, author, or other professional man may include in gross income all fees, salaries and compensation of any kind for professional services. Net income upon which the tax is assessed is gross income less the deductions allowed by law. Such deductions include business and professional expenses, such as salaries, pensions, and bonus to employees, taxes, losses, interest paid, bad debts, depreciation, depletion, contributions, etc. Failure to understand deductions against gross income and credits against net income has resulted in numerous errors on the part of taxpayers.

The Revenue Act of 1934 provides for an earned income credit in addition to the personal exemption and credit for dependents, etc., for the purpose of computing the normal tax. The next step is to deduct the personal exemption and credit for dependents. The balance represents the "surtax net income." The next step is to deduct from such balance the earned income credit and other credits to which the taxpayer is entitled. The remainder represents the amount of net income subject to the normal tax of 4 per cent. Any amount of surtax net income which is in excess of \$4,000 is subject to the surtax. The surtax is to be computed in accordance with the rates in the various so-called surtax brackets.

No. 13

Deduction For Business Expenses. Deductions for business ex-

DEFENSE

(Continued From Page One) sibly concern us. Nevertheless, it is unwise to neglect the lessons of our past experience."

The strength of the army last Oct. 31 was 1,948 officers and 38,841 enlisted men, not including 8,441 in the Philippine scouts and 842 warrant officers. In June of last year there were 11,985 officers and 118,727 men. The national defense act provides for a regular army strength of 18,000 officers and 280,000 enlisted men. The war department submitted estimates for 185,000 men but the bureau of the budget reduced this to 147,000.

No secret was made, however, of the \$50,000,000 five-year program for Hawaii urged by Major General Hugh A. Drum, commander of the department out at "the crossroads of the Pacific" for \$20,000,000 for defense outright and another \$30,332,922 for housing and other "human need or welfare" requisites. Similarly the hearings disclosed Major General Lyle Brown's demands for the commander of the Panama Canal department for a \$25,000,000 five-year program of defense installations.

Although Major General Johnson Hagood did not run up dollar-and-cent totals for border defense, the Eight Corps Area Commander, Third Field Army commander emphasized the Mexican boundary was "the only land frontier we have which is of any military importance." He agreed with committee members inquiring as to the need of more adequate border defenses that any foreign power of any strength could land and come through Mexico at will and that in case of trouble from an enemy on the Pacific side "it would be a great menace to the United States, so far as troops landing in old Mexico and coming across our border is concerned."

Figures showing the army will have only 250 airplanes in first-class fighting trim a year from June were given a subcommittee by Major General Oscar Westover, air corps chief.

He said the committee took that air defenses for the nation's territories and possessions are "almost impossible."

Millions Asked For Texas River Works

WASHINGTON, Feb. 10.—(AP)—Congress was asked today to appropriate \$2,500,000 for maintenance of Texas river and harbor projects during the fiscal year beginning next July 1.

The following 15 maintenance items were contained in the appropriations bill for war department activities: Sabine-Neches waterway, \$500,000; Galveston harbor, \$132,500; Galveston channel, \$200,000; Texas City channel, \$180,000; channel to Port Bolivar, \$200,000; Houston ship channel, \$500,000; Anahuac channel, \$400,000; Cedar bayou, \$200,000; Clear Creek, \$80,000; Freedom harbor, \$115,000; Aransas Pass to Corpus Christi channel, \$249,000; Port Aransas, \$250,000; Brazos Island harbor, \$150,000; examinations, surveys and contingencies of the Galveston district, \$300,000; Sabine Island to Corpus Christi section of the Louisiana-Texas intracoastal canal, \$144,000.

The appropriation bill also contained a request for \$234,000 for construction of groins in Galveston harbor.

POLITICS

(Continued From Page One) In state delegates would spell abandonment of these plans. Many believed the state central committee would endorse some leading presidential possibility, and they figured Borah would have less chance of getting this endorsement than some others.

Borah, in a statement Saturday, attacked the "favorite son" or unpledged delegation plan and called for an open and candid declaration by candidates for delegates as to their presidential choice. He said he understood Fess was for Herbert Hoover and challenged him to say so.

The bill, but said he could be for Hoover without having to make an apology. Father Charles E. Coughlin, Detroit radio priest, devoted himself to the money question. He said yesterday, declaring "sound money must be government money." Further repercussions of Alfred E. Smith's Liberty League speech came from Albany, N. Y., where the Knickerbocker Press quoted Senator Pope (D-Iowa) as saying the speech "most unfortunate." Coincidentally San Francisco county officials invited "Al" Smith to deliver a Democratic anti-new deal demagogue to join them at a Lincoln Day luncheon.

penses form a large item in the return of many taxpayers, and must have certain qualities to be allowed. Such deduction must be for an expenditure in connection with the maintenance and operation of the taxpayer's business or business properties; it must be an ordinary expense and it must be a necessary expense. In insisting upon the latter qualifications, the Bureau of Internal Revenue is upheld by the Board of Tax Appeals and the courts. Ordinary and necessary expenses are only those which are usual and essential in the case of similar taxpayers, and do not include extraordinary and nonessential expenses.

Typical business expenses of a mercantile establishment are amounts paid for advertising, hire of clerks and other employees, rent, light, heat, water, stationery, stamps, telephone, property insurance, and delivery expenses. The expenses of a manufacturing business include labor, supplies, repairs, light and heat, power, selling cost, administration, and other similar charges.

The farmer may deduct all amounts paid in the production, harvesting, and marketing of crops, including labor, cost of seed and fertilizer used, cost of the land on which the crops are raised (other than his dwelling), and small tools used up in the course of a year of two. A taxpayer may deduct more than one business and claim the business deductions of each.

PITTMAN

(Continued From Page One) gross to study the Eastern question, he had in mind that "congress alone has the power and the duty imposed upon it to appropriate money for the national defense."

Quoted Japanese Writer. Pittman quoted a Japanese writer as saying, America "is ready to renounce her traditional principle of the freedom of the seas."

"Well," the chairman declared, "The United States does not intend to surrender the freedom of the seas to any government on the high seas beyond the three-mile limit in time of peace."

"The pending neutrality legislation," he continued, "expressly reserves and reaffirms all of its rights under international law even in time of war. Foreign governments may be warned that any restriction of the United States may see fit to put upon its citizens in time of war will not constitute any warrant for illegal treatment of our citizens by foreign governments. The United States government of the right to take any action it sees fit, voluntarily, on behalf of its citizens."

Amplified at Ambassador. Pittman said that "astonished" that Hiroshi Satto, Japanese ambassador, "should attempt to create the impression in our country that Japan's doctrine of the United States is similar to our Monroe Doctrine."

"Such doctrines may have similarity as to the threat implied against foreign conquest, but under the United States doctrine did not arrogate to ourselves the right of conquest or domination in the Americas."

"We were seeking to preserve the independence of Latin America, not to destroy them."

"There is, however, a Monroe doctrine applicable to China, which Japan, together with eight other governments, including the United States, solemnly agreed to abide by and respect. X x x it is known as the nine-power pact."

Japan Vice Admiral Quoted. (This agreement bound the signatories to respect the sovereignty and independence, and territorial and administrative integrity of China.)

He read a dispatch quoting Vice Admiral Kato, Japanese commander of the Japanese fleet as saying "unless America renounces her naval policy aimed at the expansion and protection of her foreign trade, Japan will be forced to extend her fleet to the Pacific, to New Guinea, Celebes, and Borneo, and establish footholds in Formosa and the mandated South Sea Islands."

The speaker declared that "never in the history of modern times has such an undiplomatic, arrogant and impertinent statement been volunteered by one holding such a high position."

The speaker attacked "false and destructive" Japanese propaganda and declared "the propagandists are apparently attempting to engender in the minds of the people of this country through the use of articles and threats of war."

STRIKE

(Continued From Page One) ing many of the most prominent. Police protection was ordered for employees of two taxi-cab companies and for one car wash. The companies operate 650 cabs and police feared recurrence of the violence that marked the 134 strike.

Conferees Continue. At the request of Mayor La Guardia, week end conferences between the opposing groups in the garment industry continued today. The union group, however, refused to make a complete surrender. The threatened strike, Julius Hochman, general manager of the Dressmakers' Union joint board, said, goes beyond the garment industry and strikes wages and shorter hours to what they term "evils in the job-contractor system."

Under this system, Hochman said, a job is not handed out to a contractor but is given to a contractor by a jobber's using as high as 50 contractors a year, pitting one against another to obtain lower prices, which in turn results in lower wages.

The union wants an agreement limiting the number of contractors each jobber may use to his actual needs.

WILDCAT

(Continued From Page One) The drill stem test Friday night extended to 10,000 feet. The well was then drilled to 12,000 feet. The highest price reported was \$150 an acre, and that for land close to the well, but other land was held out for more than that.

Claud McDonald, Mout Pleasant operator, estimated \$500,000 change in hands yesterday. The Texas Company, which had been in the lease, a 300-acre tract three miles south of the well at \$25 an acre. Close-in royalties were offered at \$100 and \$200 an acre.

Food and lodging facilities were taxed here an ad surrounding towns. Hotels at Mount Pleasant, the Titus county seat, were full. Telegraph operators worked around the clock in shifts.

KRUPP

(Continued From Page One) first view of rough-and-tumble Texas when 13... drygoods merchandising... Pancho Villa driving a delivery truck for him and recruiting an army in his off hours... oil and riches... and Pancho called him "Don Hight."

The stream of memory eddies about the rebel Mexican. "He was a fine man, illiterate, but would have been the greatest leader they ever had, with a good education. He was for the common man—the peon."

A great big, husky fellow he was.

Not forgetful of a friend, it developed. Krupp's drygoods concern got many orders for shoes, blankets and clothes for Pancho's "hombreros" after they got the revolution on a paying basis.

TEXAS COLD

(Continued From Page One) the south portion except on the west side of the Rio Grande. Slightly warmer weather and partly cloudy was forecast for East Texas tomorrow.

In the western part of the state the forecast was for fair and slightly warmer weather.

BIDS OPENED FOR RE-ROOFING P. AND S. HOSPITAL MONDAY

COMMISSIONERS DISCUSS COSTS ROAD-BRIDGE FUND OF WPA PROJECTS

Bids were opened at the regular meeting of the Navarro county commissioners court Monday morning for the re-roofing of the P. and S. Hospital, but no contract was awarded. The letting of the contract was deferred.

Claims were allowed except as noted on the closed list. It was quarterly report of Melvin Penney, county treasurer, was approved and filed.

Considerable discussion was held among the commissioners relative to the costs of the road and bridge fund for the WPA road projects in the county. The various projects where permanent road improvement projects are being made. Repairs to bridges and the grading and transportation costs are running higher than the commissioners had originally anticipated or contemplated.

Bids submitted Monday for the re-roofing of the P. and S. Hospital were as follows:

R. B. Bowman, \$1,089.05; A. E. Foster, in Son, \$1,066.75; W. F. Hickory, \$982.45; D. L. McVier, \$1,028.50; H. E. Smilling, \$1,141; A. D. McMullan, \$1,147; E. B. Church, \$1,187.05; H. B. Boyd, \$1,013.35; J. W. Sheppard, \$1,180.11; F. H. Robertson, \$1,089.50.

Missing Teacher Located Oklahoma

Sheriff Rufus Pevehouse said today Miss Mary Evans, Malakoff school teacher missing since Feb. 2, had been located at Claremore, Okla.

He said her brother, Fred Evans, of Buffalo, N. Y., had received a telegram from her saying she was leaving Claremore for his home, and that she was all right. The sheriff had no more information.

MRS. LONG

(Continued From Page One) Rose and two sons, Russell and Palmer.

Mrs. Long was greeted before the senate convened by women members of the house, including Representative Jenkens (D-Ind) and O'Day (D-NY).

Senators who came forward to greet her included Pittman (D-Nev.) the president pro-tempore, and Lewis (D-Ill.), democratic whip.

WASHINGTON, Feb. 10.—(AP)—Shivering and "very excited," Mrs. Rose McConnell Long came to the capital with her three children today to fill the unexpected term of her late husband, Senator Huey P. Long.

Dressed in black her red bobbed hair covered by a close-fitting feathered black hat, she did not bustle from the train in the middle of the night as her husband used to do but slept late and departed quietly.

Accustomed to balmily New Orleans, she was much impressed by the capital cold. Her pretty daughter, Rose, in a modish brown straw hat, was too cold at the moment, to talk about anything else.

A half dozen cabs took the family and piles of luggage to quarters reserved for them at an apartment building.

Only one of the late senator's bodyguards was present. He was Theo Landry, accompanying Mrs. Long's youngest son, Palmer Reid. The older boy, who has a striking resemblance to his father, walked beside Governor and Mrs. James A. Noe of Louisiana, who came along to witness the ceremonies.

Others in the group included Gilmer McConnell, brother of Mrs. Long, and Seymour Weiss, former treasurer of the Long political organization. Earle Christensen, secretary to Mrs. Long, and former secretary to her husband, met them.

Swearing-in of Mrs. Long was set for noon eastern standard time.

MEXICO

(Continued From Page One) Three stevedores were killed, and five wounded; two of their rivals wounded fatally, and 13 injured.

All port operations were suspended. No arrests were made, however, police reporting they were unable to find those responsible for the shooting.

Although federal troops dispersed the fighting, Tampico dispatches said feeling ran high in the northeastern seaport, and the maritime workers planned a mass demonstration later today in protest against what they called "outrageous aggression."

At Monterrey, President Cardenas told 15,000 demonstrators that he would settle a strike in the "Vidriera" Glass factory in accordance with law.

Appealing to both workers and employers to maintain a calm attitude, the President insisted he was convinced that "communism does not exist in Mexico."

New Labor Dispute. LAREDO, Feb. 10.—(P)—A new labor dispute was presented by Lazaro Cardenas today.

Postal employees of Nuevo Laredo, across the Rio Grande from here, carried a set of demands to Anahuac to present to him after receiving a telegram from him that a threatened strike for higher pay would not be necessary. The message said legitimate demands would be met after an investigation.

Cardenas was reported to have gone to Anahuac, 60 miles southwest of here, from Monterrey, where he has been trying to settle a strike of glass workers.

WPA PROJECTS

(Continued From Page One) er cost per man year secured by changing the type of repairs contemplated. It was intimated that the new method was believed to supply better repair jobs and be more durable than the original method figured in the project.

Ray Morgan, director of the Corsicana National Re-Employment Service office, reported on Monday that he had more than a hundred men still unassigned to work projects in the local of Corsicana alone, and all of them certified as eligible from the relief rolls. In addition, a possibility existed that more than that number have been located recently who had changed addresses and had not moved in the local of Corsicana. The result that their cards had been removed from the files when they could not be located earlier in the year for assignment.

Low Water Dam Project. Bids were forwarded to Waco Monday on teams and trucks for the low water dam project at Lake Halbert, and work is expected to start immediately on this job. A series of dams will be built across channels draining into Lake Halbert to prevent silting of the lake during the rainy season.

Other revisions are also being made on plans for additional drying beds for the sewage disposal plant, for the relaying of a number of water mains and sewer lines in various parts of the city, and on a number of storm sewer projects.

It was reported that all of the plan outlines had been approved by national and state authorities and that only satisfying of the engineers in the Palestine district offices remained to be accomplished.

Organization plans for the Texas Memorial Museum Centennial for sale of Texas Centennial coins.

Organization plans for the Texas Memorial Museum Centennial for sale of Texas Centennial coins. The Texas Memorial Museum will set up local organizations in 31 districts in Texas, it has been announced here by Beauford H. Jester, general chairman of the coin campaign. Proceeds from the sale of the centennial half dollars will be used in building the Texas Memorial Museum.

The 31 districts, each of which will have a general committee, will coincide with the 31 senatorial districts of Texas. The committees for the districts are now being formed by Mr. Jester. One in each district will be selected by the committees by Harry D. Cross, director of the coin campaign. Announcement of the district committee chairmen will be made within a short time.

Following announcement of University officials to the effect that the Texas Memorial Museum would be one of popular appeal instead of one of scientific interest, Mr. Jester's committee decided to extend the campaign to every section of the entire state, giving each Texas citizen an opportunity to do something for the museum.

During the pre-construction days of the museum the campaign will be conducted in the 31 districts and following the ground breaking for the museum, the campaign will be conducted largely at the several Centennial celebrations in the state. The campaign is such that every citizen of Texas to become a part of this patriotic endeavor by the purchase of Texas Centennial half dollars. We are organizing our campaign in such a way that every citizen will be given every citizen to help us by the purchase of these coins to raise the minimum of \$300,000 needed in addition to the state and federal funds.

BEAUTY CHATS

By EDNA KENT FORBES

All requests for beauty information desired by Miss Kent Forbes columns must be accompanied by a fully self-addressed, stamped envelope (s.e.s.) and two cents in stamps to cover cost of printing and handling. For the illustrated pamphlet, "BEAUTY," ten cents in stamps fully s.e.s., must be enclosed. Address Miss Forbes in care of this paper.

LUBRICATING THE SKIN.

DRY SKIN TREATMENT
Miss Forbes tells you how to make a dry skin soft and well nourished, and, incidentally, to make an old skin look young and unwrinkled again.

you nothing at all, is one of the best ways I know of treating a dry skin, or of nourishing a neglected one.

Wipe off the surface with dry tissues. You can follow this with an ice treatment if you wish.

Committee Head
Seeks Location
Navarro Statue

Suggestions for the location of the statue of Jose Antonio Navarro, Texas patriot and statesman for whom this county was named, are desired by the location committee co-operating with Texas Centennial officials. Richard Mays, local attorney and authority on Navarro, is heading the location group.

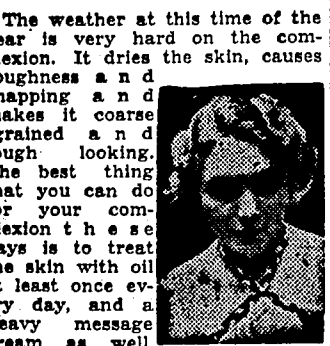

At a meeting of the committee held at the Corsicana Chamber of Commerce Friday afternoon a number of suggested sites were discussed, including the courthouse lawn, the high school campus, a location in the business section, the lawn of the public library, and the intersection of Highways 75 and 22.

After extended discussion of the matter, Chairman Mays pointed out that the location was a community project, and asked that citizens send their suggestions and proposals to the committee by Tuesday, February 11. Another meeting of the committee will be held on February 12.

All suggestions should be sent to Richard Mays, chairman of the Navarro statue location committee, and should be in writing.

The statue of the famous Texas patriot was awarded to Corsicana by the Texas Centennial Centroy Commission on the recommendation of the advisory board of historians.

Edna Kent Forbes

The weather at this time of the year is very hard on the complexion. It dries the skin, causes roughness and chapping and makes it coarse grained and tough looking.

The best thing that you can do for your complexion these days is to treat the skin with oil at least once every day, and a heavy message cream as well.

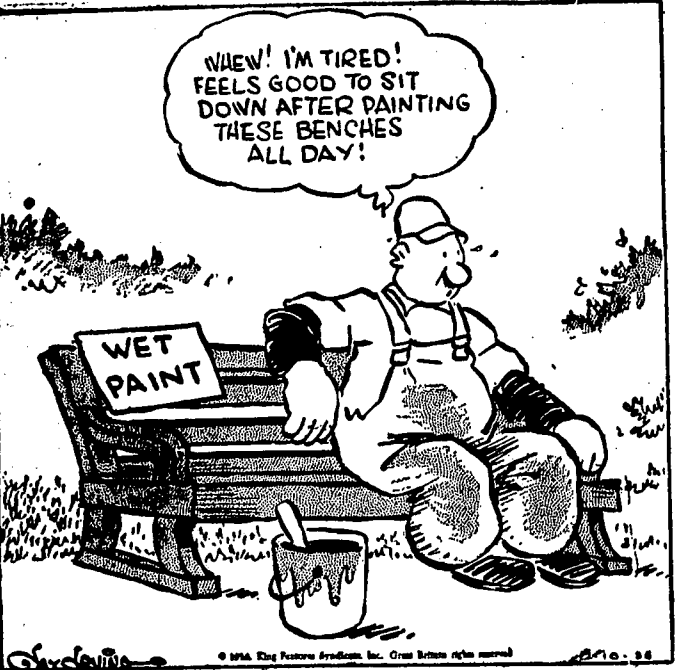

This is irrespective of age. Even a young girl's skin will look a lot better if it is done with a good cream at least once every day.

In the morning freshen your face by washing cold water over it, wipe dry and then rub it with almond oil. You do not need much, but you should work it well into the pores, wipe off the surplus with tissue or an old towel and use the oil as a powder base. It will do wonders in keeping your skin fresh and soft through a whole day of blistering wind and snow. But even this is not enough.

Either in the late afternoon or at bedtime, give your skin a more thorough treatment. Rub it first with oil, which takes off most of the make-up, then wash this off with hot water and soap. Rinse with hot water and dry the skin. Give it a generous coating of massage cream, a cream, that is, with a base of almond oil and containing either lanolin or cocoa-butter. (That is, if you are more than 30 years old.)

Then go and sit with your face towards a hot fire, or a hot oven with the door open, so a blast of heat comes against your skin. While sitting here work gently over the face with the fingers to help get the cream into the pores. This method, which costs

BRYAN GIRLS DEFEAT EMMETT SEXTET IN SPECTACULAR AFFAIR

FROST, Feb. 10.—(Spl.)—Bryan high's Maroon and White cagers took the Emmett high in the one of the most spectacular games ever played on the Frost high hardwood.

The game featured three all-around players of the recent Y. M. C. A. tournament, Bryan boasting two in Adams, diminutive guard, and O. Denbrow, spectacular crisp shot artist, for the Bryanians.

Proved that she was worthy of the honor of being picked as all tournament forward of the Y tournament by her clever floor play and ability to hit the basket.

Both teams played a stellar defensive game and while Denbrow of Bryan and Pevehouse of Emmett were being watched, Gay Bryan's pivot player broke loose with clever one-handed shots to hit the bucket for 12 points and Thomason, Emmett's running mate to Pevehouse, skipped under the goal to tug up 8 points for her alma mater.

While these forwards were showing to advantage their floor play and ball handling were completely overshadowed by the guards of the two teams. As both teams use a wide open, treating man-to-man defense, game was featured by clever maneuvers and quick breaks to the basket, using 1-2 passes and pivots.

All in all it was a defensive battle from start to finish.

Emmett broke into the lead after the game was only 1 minute old with a gift shot, then Bryan went out with a bang. From there on out it was a continual change of lead and the half showed Emmett two points to the good.

At the start of the second half Bryan knotted the count with a two pointer and then sent another ball going to take a two point lead. Then Emmett's offense clicked for two points. Bryan then put on an offense that clicked for six points, while the best Emmett sharpshooters could do was add two points during the remainder of the game.

The outstanding defensive players were Ballaw and Baker for Emmett and Adams and Denbrow for Bryan.

The Box Score.

	Bryan	Emmett

NUMEROUS "MUSTS" LISTED FOR TEXAS PENSION APPLICANTS

AUSTIN, Feb. 10.—(P)—Orville S. Carpenter, pension director, listed numerous "musts" to aid pensioners over 65 years old in applying for old age assistance under the new law.

Carpenter said applicants could obtain proper blanks in their localities after Feb. 14. Upon effectiveness of the law. The amount of pension payments depended upon the number admitted to the rolls and the funds accruing to the pension fund from liquor taxes.

Some of the "musts" included:

1. Give an adequate description of all real property owned.
2. Describe all personal property, including jewelry, furniture, automobiles and livestock.
3. Prove their annual income, making a complete statement of all earnings for the two years preceding an application.
4. Prove their citizenship and nationality of their spouse.
5. Name exact places in which they resided and the length of residence at each place during the last nine years.
6. Carpenter explained property descriptions were necessary because disqualifications included ownership of \$5,000 worth of real property or \$7,500 for a married couple.
7. Concerning real estate, he said applicants must show:

1. Original purchase price and date of purchase of all property.
2. Description of property from the county tax assessor telling block number, etc.
3. Name of property rendered for on tax rolls.
4. Amount of lien holder and the amount due on mortgage, equity in property and date and amount of lien.
5. Description of all property disposed of during the past two years, person sold to and purchase price obtained, with date of transfer.

The act declared ineligible persons with an annual income of \$360 or more, or married couples with an income of \$720 or more.

TEXAS A. AND M. TO OPEN SERIES SHORT COURSES THIS MONTH

COLLEGE STATION, Feb. 10.—(Spl.)—Texas A. and M. College will open its annual series of short courses and conferences, which offer brief technical training to more than 5,000 Texans yearly, with four short courses of smaller meetings, the 1936 list of short courses or conferences to be held at the college include the following, attendance figures of the past year being shown in parentheses:

Dairy manufacturing short course, Feb. 10-14, inclusive (38).

Water works short course, Feb. 10-15, inclusive (held at the college last year).

Short course for dairy herdsmen and cow testers, Feb. 17-21, inclusive (new).

Horse and mule breeders' short course, Feb. 22-26, inclusive (134).

Highway short course, April 23-25, inclusive (141).

Texas school administration conference, June 10-13, inclusive (107).

Botanical short course, June 14-18, inclusive (43).

Police short course, date in June not definite (76).

County superintendents' and county supervisors' conference, July 6-9, inclusive (150).

Farmers' short course, July 20-22, inclusive (117).

Physical education short course (coaching school), date in August not definite (117).

Laundry owners' short course, date not set (36).

Rice League Will Be Host to YPEU Tuesday, Feb. 18

The Rice League, which recently joined the young people's Epworth Union, will be hosts to the union on Tuesday, Feb. 18 at 7:30 p. m. in Rice. Worshipers will be directed by the Eleventh Avenue Methodist League and an interesting program is in store for all.

Also at this time a report will be heard from the nominating committee, Jewell Bruner, Elizabeth Blackburn and Milton Campbell, who will choose the officers for the coming year.

An invitation is extended to all young people to be guests of the Union. Come, you are welcome.

Woodchopper Admits Killing Divorced Wife

EL DORADO, Ark., Feb. 10.—(P)—Prosecutor Alvin Stevens announced today that Dennis Turner, 46-year old woodchopper, had confessed strangling his 40-year old divorced wife a week ago in Calhoun county.

Stevens quoted Turner as saying his former wife mother of three children, had threatened to have him arrested for forcing his attentions upon her and that he decided to "do away with her."

Navarro High School Faculty Entertained For School Board

Honoring the members of the Navarro school board and their wives, the Navarro high school faculty entertained with a forty-two party Friday evening at the home of Mr. and Mrs. Dock Allen.

Mrs. Jennings won high score and Mrs. Elmer Smith low.

A Valentine motif was carried out in the refreshments which were served to Mr. and Mrs. Elmer Smith, Mr. and Mrs. F. Ware, Mr. and Mrs. C. C. Hudson, Mr. and Mrs. T. P. Westbrook, Mr. and Mrs. Dock Allen, Mr. and Mrs. Welmaker, Misses Leona Daniels, Ruth Collins, N. O. Wade, Estelle Watson, Martha Hart, Deb Montgomery and Luke Adams.

Guy M. Gibson Is President of Warehouse Co.

Officers and directors for the ensuing year were named at the annual meeting of the Corsicana Warehouse Company in the Corsicana Chamber of Commerce building Saturday morning.

The annual report of the organization showed that the company had enjoyed a profitable year, and was in excellent condition.

The following directors were named by the stockholders: Guy M. Gibson, R. L. Hamilton, J. M. Garitty, Sydney Marks, W. M. Wilson, J. M. Dyner, Jr., James H. Cerr, Byron Cheney and J. O. Burke.

At a meeting of the directors the following officers were named: President, Guy M. Gibson; Vice-President, R. L. Hamilton; Secretary, Byron Cheney, secretary-treasurer.

The board decided not to elect a successor to the late W. R. Kenner, manager, until later in the year, probably the early fall.

STIFF FIGHT OVER NEW FARM BILL IS SENATE FORECAST

WASHINGTON, Feb. 8.—(P)—With democratic leaders defending the new farm bill and Senator Borah (D-Ida) questioning its "constitutionality," the capital expects a stiff fight before the measure comes to a vote in the senate next week.

Borah arose at 3 a. m. yesterday to study the bill so he could be prepared for senate debate late in the day. A snowstorm, which held many members away from the capitol, brought an end to the session before much discussion took place, but Borah told reporters: "A casual survey shows there is serious constitutional question about the bill."

He said he would study it further and "be governed by the conclusions I reach."

Senator Robinson (D-Ark), majority leader, declared, however, that the bill would be brought on Monday or Tuesday by a 2 to 1 majority, while Senator Pope (D-Ida) said there is "good reason" to believe the bill conforms to the supreme court's AAA ruling.

A bill similar to the senate measure is pending in the house.

(They would set up a dual system of federal aid to farmers. The senate bill would give farmers subsidies directly to the farmers for conserving soil, or the grants would be distributed through state organizations if states chose to cooperate. Soil would be conserved by planting it from commercial production.)

Senator Connally (D-Tex) introduced amendment yesterday. This would pay to the surplus-producing farmer a bounty equal to half the tariff on a commodity similar to the one he exports.

This feature is in line with views of minority leader, McNary (R-Ore) and Borah.

INSTALLATION OF RABBI FOR AGUDAS ACHIM SYNAGOGUE

THE SYNAGOGUE WAS ALSO
DEDICATED AT SAME TIME
IN SOLEMN CEREMONY

Installation of Rabbi H. Shapiro and dedication of Agudas Achim synagogue services were held Sunday afternoon at the Synagogue. The ceremonies were well attended, a number of out of town people being present in addition to a large representation of the local Jewish congregation. The services were open to the public and a number of gentiles attended.

The Agudas Achim congregation recently acquired the church building formerly occupied by the United Presbyterians and after considerable remodeling and repairing have been holding services there. The dedication of the synagogue was observed Sunday afternoon at 3 o'clock. Rabbi H. Shapiro, who is installed as leader, those in charge of the services Sunday afternoon stated that it was unusual to have a dedication and an installation service at the same time.

The dedication and installation services were conducted by visiting rabbis. Rabbi Abramowitz of Dallas delivered the dedication address in the Jewish language. Rabbi Raphael Gold of Dallas conducted the installation ceremonies. He congratulated the local congregation on the securing of the new synagogue and the leadership of Rabbi Shapiro. Rabbi Gold urged the Agudas Achim congregation to co-operate with their new rabbi. He compared the new synagogue to a musical instrument and the rabbi as a player and said to obtain the best results all must work together.

Charity of Heart.
In speaking of co-operation Rabbi Gold said that there was such a thing as a charity of heart as well as of pocketbook and declared that it was the duty of the congregation to extol the virtues of their leader.

Rabbi Shapiro was told by the speaker that he was to tell his people what is right and what is dutiful and that the three principal requirements of a Jewish leader were that he must be a man, a Jew and a rabbi. Illustrating this statement Rabbi Gold said first we had Adam, then Abraham and then Moses. The charge was then delivered to Rabbi Shapiro.

Rabbi Shapiro in his response stated that he was willing to accept the responsibility, as great as it is, for the leadership of the Agudas Achim congregation and that he was dedicated to the Jewish interest shown in the services of the afternoon. He declared that the services were not for Jewry alone but for all.

Reverend Cantor Kaplan of Dallas sang for the occasion and after a brief explanation of the purpose of the gathering introduced Rabbi Charles Lesser of the Temple Beth-El congregation who gave the opening prayer. Raymond Goldman, president of the Agudas Achim synagogue, delivered the address of welcome. In his address Mr. Goldman said that the occasion marked the birth of a new Jewry in Corsicana. He traced briefly the activities of the congregation and said that for 50 years Corsicana had been the center of Jewish activity for this section of the state.

Rabbi Moskowitz of Tyler brought greetings from his congregation and from a number of Corsicans who were living in Tyler. Greetings from Temple Beth-El were brought by Rabbi Lesser.

The services of the afternoon were closed by singing Hattikvah. Following the ceremonies the ladies of the auxiliary served tea in the recreation hall.

Officers for the Agudas Achim synagogue are Raymond Goldman, president; Jay Silverberg, vice president; Gabe Goldberg, secretary and treasurer; Max Wolens, Morris Evans, Max Golden, Will Golden, Joe Wolens, trustees; K. Wolens, gabi richon and H. Rothkoff, gabi shani.

Card of Thanks.
We wish to thank our many friends for the kindness you showed during the illness and death of our darling Robert. Especially the ones who gave flowers. May God bless each one.

FRANCE ADVANCES NEGOTIATIONS FOR MILITARY ALLIANCE

SEEKING EASTERN EURO-
PEAN TIES IN FEAR GERMANY
MAY BRING TROUBLE

By EDWARD KENNEDY
(Copyright, 1938, By Associated Press.)

PARIS, Feb. 10.—(AP)—The French government advanced negotiations to strengthen its military ties in Eastern Europe today amid increasing expressions of fear of what German re-armament might bring.

Gen. Andre Nessel asserted in an address before a reserve officers' convention yesterday that the Reich already had moved 40,000 fully-armed men disguised as constabulary, into the de-militarized Rhine zone.

A French official, supporting the statement by the former member of the supreme war council, indicated a government belief that this was the "first step toward out and out violation of the zone."

The government pursued its negotiations to meet such an eventuality along two lines:

1. Diplomatic conference toward a five-power Danubian pact for economic and military co-operation.

2. Military discussions of details of the Franco-Soviet mutual assistance pact.

Foreign Minister Pierre-Etienne Flandin conferred with Premier Milan Hodza of Czechoslovakia on the proposed Danubian pact under which Rumania, Hungary, Yugoslavia and Czechoslovakia would guarantee military aid to Austria in the event of a German attack.

Members of the French general staff discussed with Marshal Mikhail Tukatchevsky of the Soviet army technical aspects of the bilateral mutual assistance pact, which awaited ratification by the chamber of deputies. The chamber was expected to consider tomorrow completion of action on the accord.

Industrial activity during January, though experiencing its first setback since September, was at the highest level for the period since 1930, according to the monthly statistical survey of The Associated Press. Averaging 84.4 during January, the index compares with 78.2 a year ago and 64.6 in 1934.

The decline gained momentum as the month wore on, closing at the lowest since early November. The halting pace of industry is traceable in no small measure to the step-up that occurred last fall in automobile production. The contra-seasonal drop in auto output is reported to be due to the hesitancy of manufacturers to add further to stocks without some sample of the spring sales outlook.

Slowing motor activity is reflected in lower railroad carloadings, with the miscellaneous classification—containing steel and auto shipments—bearing the brunt of the reversal.

Residential building construction resumed the upward trend interrupted in October. Steel mill activity continued on an even keel at approximately 50 per cent of capacity. Cotton manufacturing and electric power output moved serenely along above the comparable 1932 levels.

Plans had been adjusted to maintain soil fertility and to control erosion.

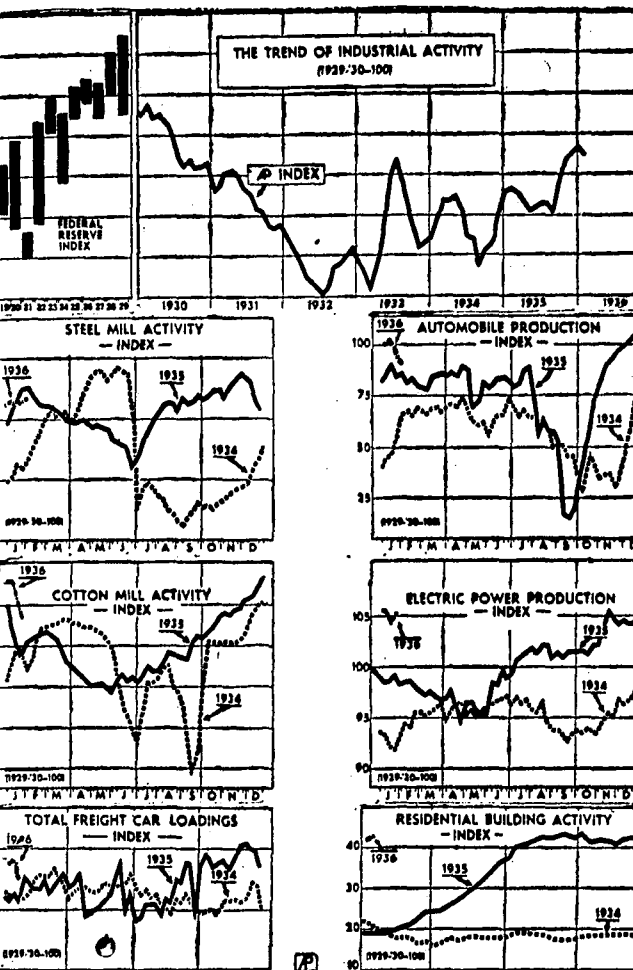

The schedule forms for answering these questions will also have added another schedule, number seven, which asks these questions in relation to gardens and home processed commodities for home consumption," Adams concluded.

TEXANS ASK PENALTY BE REMOVED WORTHY WHO STAY OFF RELIEF

AUSTIN, Feb. 10.—(AP)—Representatives of Texas cities today implored federal officials to remove the bar of ineligibility for works progress jobs from destitute persons who had not been on relief.

Executive committeemen of the Texas League of Municipalities adopted a resolution urging a change in rules "to permit the selection of worthy unemployed people on such projects regardless of the relief status of such people in the past."

The resolution, directed to federal officials and the Texas congressional delegation, asserted there were many employables not certified to the WPA because they were not on the relief rolls prior to Jan. 1.

Committeemen opposed penalizing those who "have tried to provide for themselves and their families without becoming a liability on a charge of the federal or local government."

The burden of caring for about 50,000 cases of employables was shifted from the state to local governments Jan. 1 when the state relief was restricted to unemployed.

The league committeemen also planned 11 regional one-day meetings to which all city officials were invited to discuss municipal problems, including future relief methods.

Meetings were definitely set for Feb. 21 in San Antonio and March 5 in Waco. Tentative dates for others were: Brownsville, April 3; Longview, April 17; Corpus Christi, May 8; Wichita Falls, May 22; San Angelo, June 5; Amarillo, June 18; Arlington, July 2, and El Paso, July 17.

**News of County Home
Demonstration Clubs**

Richland.
The Richland Home Demonstration Club met February 6 at the home of Mrs. C. E. Mayo, president. Eight members were present.

Business matters consisted of a council report by the retiring council delegate, Mrs. C. K. Vinson, the election of Mrs. S. M. Elkins as successor to Mrs. Vinson, and the appointment by the president of Miss Helen Sue Gaines as assistant reporter.

The chief discussion topics of the meeting, "Cutting Roses for the House," and "Insect Control," was presented by Mrs. Elkins, who gave an interesting and profitable yard demonstration.

The meeting concluded with games and stunts, Mrs. Vinson and Mrs. C. A. Stede being the winners. Delicious refreshments, apricot and whipped cream with cake and grape juice, were served by the hostess.
